CHAPTER I

INTRODUCTION

Background

This report was compiled because of many requests for a listing of vocational education research in North Dakota. Publication and distribution of this information is a function and responsibility of the Research Coordinating Unit. Although not a great deal of research has been completed in the area of Vocational/Technical Education, the purpose of the report is to recognize what has been done, and to encourage further research.

The North Dakota Research Coordinating Unit wishes to acknowledge the assistance of those who provided the information:

Orlin Bakken, Director, Continuing Education, North Dakota State School of Science, Wahpeton, North Dakota

Lois Baldwin, Administrative Assistant, Graduate School, University of North Dakota, Grand Forks, North Dakota

Myron Bender, Assistant Professor and Acting Chairman, Industrial Arts, University of North Dakota, Grand Forks, North Dakota

Ed Dunn, Technical and Vocational Center, Anoka, Minnesota

Dr. Doroty Grovom, Associate Professor of Business Education, University of North Dakota, Grand Forks, North Dakota

Oswald M. Hager, Associate Professor, Distributive Education, University of North Dakota, Grand Forks, North Dakota

J. A. Horton, Director, Trade and Technical Division, State School of Science, Wahpeton, North Dakota

Shubel D. Owen, Professor, Agricultural Education, North Dakota State University, Fargo, North Dakota

Dr. Josephine B. Ruud, Professor and Chairman, Home Economics Education, North Dakota State University, Fargo, North Dakota

Dr. John L. Rowe, Professor of Business Education and Chairman of the Department, University of North Dakota, Grand Forks, North Dakota

Dr. John A. Thompson, Director of Graduate Studies, University of North Dakota, Grand Forks, North Dakota

CHAPTER II

METHODOLOGY

To obtain the information for the report, teacher educators in schools which have programs leading to Masters' Degrees or Doctorates in areas of vocational education were contacted. Since it was known that faculty members at the State School of Science, Wahpeton, North Dakota, had completed studies on North Dakota, that School was also contacted.

Studies published through the North Dakota Research Coordinating Unit for Vocational and Technical Education were also included.

The report represents an effort to locate studies completed in Vocational and Technical Education in North Dakota since 1960. Only Business Education Doctoral Dissertations and Masters' Theses of a vocational nature are included. Independent Studies in Business Education are not included.

The Research Coordinating Unit invites comments, suggestions or additions for a later revision.
